

October 30, 2007

Dear Mr. Del Vecchio,

I graduated from your program in September 2007 that was held at Montgomery County Community College. I just wanted to let you know how impressed I was with your program. I felt the practical part of the program was great. I also thought the internship was a valuable experience.

Being a little nervous, I blindly called Ruth Fricker at the LaCrest Health Center at the North Penn YMCA. I was greeted with friendliness and a helpful attitude. Ruth and her staff were great. They explained the process of working with clients very well. They were warm, friendly, positive and made my time there very enjoyable. If I lived closer I would have asked for a position there. I raved about your program to the staff there and they seem very interested in it. Of course the finances are always an issue, so I don't know if anyone will actually pursue it. I am hopeful they will get an opportunity to experience your program as I did.

Anyway, I just wanted to let you know of my positive experience on all parts of the program. I am looking forward to taking more class with W.I.T.S. in the future.

Sincerely,

Patricia Malcolm
