Jaelyn,

We have been thoroughly impressed with the trainers coming out of the W.I.T.S. Personal Training Certification Program, both during internships, as well as once they are hired. The hands on experience that your program allows has proved to be incredibly valuable. Your graduates have come in with the knowledge, experience, and desire to help others and be successful in the field.

That being said, I'd like to request access to your recent graduates in order to contact them about possible Personal Trainer positions. We have multiple locations and each one of them could benefit greatly from the addition of more of the qualified individuals your program has produced. I look forward to meeting with many of them, and adding them to our stellar Personal Training Team.

In good health,

Paul Brones
General Manager/ Training Director

Mr. Jay Del Vecchio,

We would like to request a copy of your graduate list from the 609 area code. It will only be used for employment purposes. We are always striving to add educated and certified staff to our team and your program is very reputable.

Yours in Good Health

Don Michael
Assistant General Manager
