To whom it may concern:

To date Winnipeg Technical College's experience working with the World Instructor Training Schools (W.I.T.S.) has been limited, but very positive. The College has offered the Personal Fitness Trainer course for the first time last spring. Several successful candidates have already secured employment and have expressed satisfaction with the training. Partnering with W.I.T.S. has provided us with an opportunity to expand our program offering with limited investment in planning and resources. W.I.T.S. makes its expertise and resources available, which include proven instructional and marketing strategies.

The course includes components in theory and practical instruction as well as an internship placement. This short term training course is hands-on and employment focused. Class sizes are small and the instruction individualized. W.I.T.S. staff have made arrangements for the course to be recognized by CanFit Pro; this is value added in our area. Additionally, they have assumed responsibility for developing partnerships with local fitness professionals to establish potential internship sites.

The College plans to continue its relationship with W.I.T.S. in the future. Please feel free to contact me if you require additional information at 204-989-6570.

Sincerely,

Chantal Simard
Dean, Continuous Learning & Corporate Programs
