Onelife
FITNESS

To Whom It May Concern,

August 15, 2017

This letter is in reference to US Fitness Group, LLC, parent company to Onelife Fitness, Sport&Health, Onelife Atlanta Fitness and Crunch Fitness and the long standing relationship we have with World Instructor Training Schools.

At US Fitness we uphold the highest standards for our Personal Training team. We require education and competency in Personal Training at all levels of employment and believe that Delivering the Ultimate Fitness Experience to Every Member, Every Time requires our team to have such training and competency.

We believe that the education received at W.I.T.S. is a great step in showing that an individual is the type of employee we are seeking to hire. We actively partner with W.I.T.S. to recruit and interview their graduates. As the Senior Vice President of Fitness, I encourage every individual seeking a career in Personal Training to start with not only a certification but also the necessary education and hands on practical training critical in the profession of Personal Training.

Sincerely,

Mitch Batkin
Senior Vice President of Fitness

A handwritten signature in black ink that reads "MBatkin". The signature is written in a cursive, flowing style.
